

WEEK 11- YEAR 4 PRIMARY EDUCATION

HELLO KIDS!

This week you are going to work on a dialogue with a doctor. We did this in class before so it is easy for you!

Remember we use the expression "my ___hurts" when we want to say "me duele la ____" or we can say "I've got a ____ache"

For example :

"I've got a headache"

"My leg hurts"

Watch this video of a conversation at the hospital:

[at the doctor's](#)

ACTIVITY:

I want you to **create a dialogue** like in the video. You have two options, choose one:

Option 1: write the dialogue and send it to me, you can use the sentences from the video, but change the symptoms etc. You can do it on a piece of paper or in Word or Power Point.

Option 2: make the conversation alive, record yourself on a video having a conversation with a doctor. You can be the doctor and someone in your family the patient, or the other way.

Option 3: do option 1 and 2.

Here I give you some sentences you can use:

Doctor:

"What's the matter?"

"How can I help you?"

"How are you feeling?"

"What symptoms do you have?"

"Do you have a?"

"Do you cough?"

"What about....?"

Patient:

"I don't feel very well"

"I'm feeling weak, dizzy"

"At night"

"All the time"

"Sometimes"

"When I swallow my throat hurts"
