

Task: A Moment in History

Think of a time when you learnt about an interesting moment in history, either in class or elsewhere. Write about both your experience of learning the information and about the information itself (100-110 words).

Example structure:

- a) Sentence 1: 'I remember in First ESO when we learnt about... / I remember when my grandma told me about...'
- b) Sentence 2: 'My teacher/ my grandma told me that...'
- c) Sentence 3: 'This really caught my attention because...'
- d) *More information about the historical event*

You do not have to copy the example exactly- it is mainly to help you understand the task.

If you can't remember where you learnt the information, be creative 😊 I expect your historical facts to be correct, but no one is going to check the accuracy of your personal experience!
