

# Spring time

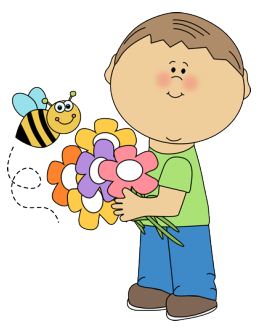

I love spring time. I feel happy when I see the colourful flowers in the garden and the birds sing happily in the trees.

Winter is too long and cold for my taste. Days are too short and I have to get up when it is still dark outside.

Sometimes my parents take me and my sister to the country. There is a river and a lot of mountains not far from our city. We usually have a picnic there and we can run and play in the forest or ride our bicycles.

My sister and I catch butterflies. We let them free after a while because we don't want to kill them.

also like summer time. There is no school and I go on holidays to the beach with my family.

I love going to school but in July my parents don't have to work and we can talk and go for a walk in the park.

Which one is your favourite season? Why? Tell me in 60 words
