

INTERVIEW TO CAITLIN

Questions asked by the students of 2nd year ESO C, as part of the ComunicArte project.

We did an interview to Caitlin, our English language assistant. The interview is divided in four parts; the first one has questions about her life in the US, the second one is about her life in Spain. On the third, we asked her about culture and travelling. The fourth one is about her favourite things.

First part

1-Where did you born and what part of the US are you from?

I was born in Charleston, South Carolina.

2-How was your life in your city before coming to Spain?

It was much faster than here, and more work. We had to drive everywhere we went. I lived in a house. My city was more like a forest.

3-What did you study and where?

I studied at Seton Hall University at New Jersey. I studied Communications and Philosophy.

4-Did you always want to be something related to languages or education?

Yes. I like learning new languages, but I did not think I would be a teacher.

Second part

5- What motivated you to come to Spain?

I have always loved Spanish and the culture, but I preferred to move to Spain because in my country we only learn things of South America, but not from Spain, so I preferred to move here.

6- Was it difficult to adapt to Spain and its language?

Yes, it was a little bit difficult and very different from the United States, but I think it was easier for me than for other people because I like learning about different cultures.

7- What thing most impressed you when you arrived to Spain?

Probably the lifestyle. Life is much slower and happier than in my country.

8- Would you like to live in Spain?

Yes. I love being here.

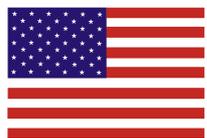

9- What do you miss most about your country?

Probably, that the shops are open on Sundays.

10-Would you like something from Spain to exist in your city, Charleston?

Many things, but I think if I had to say one is the walking culture. Being able to walk and have good public transport.
